Project

Slot Booking System – Winning Circle, Chennai

Developed and implemented a dynamic slot booking system for sports facilities, enabling users to reserve courts for pickleball, futsal, and other activities.
Integrated date-wise slot availability, user authentication, and automated booking confirmation features.
Ensured seamless daily slot reset and real-time availability updates to enhance user experience.
Used HTML, CSS, JavaScript, and PHP with backend database management for efficient booking control and user data handling.

Summary

Experienced Full Stack Developer with 2+ years of expertise in HTML, CSS, Bootstrap, and JavaScript. Successfully increased website efficiency by 30% while ensuring high code quality. Passionate about leveraging technology to drive innovative solutions in web development and Database Management.

Professional Experience
